A big welcome to the

Isle of Wight

Isle of Wight NHS Trust

NHS Isle of Wight Clinical Commissioning Group

We are delighted to announce that information for Isle of Wight patients will soon be available to view in the Hampshire Health Record.

Following a recent decision by the IoW Clinical Executive Committee, information for patients registered with an IOW GP will be fed to HHR and will be accessible to NHS and LA users across the IoW, Hampshire and Farnham.

Mr Maher El Alami (Lead Clinician for ENT and CCIO for IoW NHS Trust) said "*A common health record is essential to allow seamless exchange of information on important clinical information on our patients. We have made great strides to provide an electronic health record for IOW resident patients … [and] the HHR underpins the whole IT strategy and the drive to harmonise electronic services*."

Data sources will include 18 GP Practices, one acute trust and one local authority. This exciting project will mean that health and social care professionals will have access to accurate and up to date information for IoW patients who are treated on the mainland.

Dr Mark Kelsey (Clinical Lead HIOW Digital Transformation Programme) said *"this development helps to cement HHR's position as a critical system for information sharing locally. Better sharing of information will help transform care for the IOW and wider Hampshire population."*

Contact Preeti Mehta (Senior Project Manager) at: preeti.mehta@nhs.net to find out more.

HHR becomes CHIE

The inclusion of the Isle of Wight means that the HHR no longer accurately describe the area it covers.
Therefore, the planned change to our new name, **CHIE** (Care and Health Information Exchange) will take place from 1 November 2017.

This name change underlines the fact that CHIE is much more than a data repository or static record. The new name better describes the type of system that we are and our ambitions to do more in the future.

What's in HHR?

Visit our n3 website at:
http://nww.hhr.scwcsu.nhs.uk
for a list of information that can be found in the Hampshire Health Record.

Single Sign On

Did you know that the single sign functionality is available to staff working in many organisations including:

- GP practices (EMIS Web and TPP SystmOne)
- Hampshire Hospitals NHS Foundation Trust
- Portsmouth Hospitals NHS Trust
- University Hospital Southampton NHS Foundation Trust
- Solent NHS Trust
- Southern Health NHS Foundation Trust
- North Hants Urgent Care & HDOCs
- SCAS

Please contact us if you would like to know more: **info@hantshealthrecord.nhs.uk**

What's next?

2017 will see a major upgrade of the HHR software that will provide a new, modern user interface, allowing data to be viewed by type.

Following that upgrade, further work will follow facilitating dynamic care planning and enabling access via mobile devices.
